FORM ADV PART 2A BROCHURE

This brochure provides information about the qualifications and business practices of Clear Money Path. If you have any questions about the contents of this brochure, contact us at 573-426-5770. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Clear Money Path is available on the SEC's website at www.adviserinfo.sec.gov.

Clear Money Path is a registered investment adviser. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Item 2 Summary of Material Changes

Form ADV Part 2 requires registered investment advisers to amend their brochure when information becomes materially inaccurate. If there are any material changes to an adviser's disclosure brochure, the adviser is required to notify you and provide you with a description of the material changes.

Since the filing of our last annual updating amendment, dated we have the following material changes to report.

- We have amended Item 4 *Advisory Business* and Item 5 *Fees and Compensation* to disclose that we no longer offer the Wrap Fee Program.
- We have amended Item 4 *Advisory Business* and Item 5 *Fees and Compensation* to remove Raymond James Consulting Services as a sub-advisor to separately managed accounts.
- We have amended Item 12 *Brokerage Practices* to include TD Ameritrade as a custodian.

Item 4 Advisory Business

Description of Services and Fees

Level Paths LLC d/b/a Clear Money Path is a registered investment adviser based in Rolla, Missouri. We are organized as a limited liability company under the laws of the State of Missouri. We have been providing investment advisory services since February of 2009. Mark Turner Riefer, Managing Member and Chief Compliance Officer is the principal owner of Clear Money Path.

The following paragraphs describe our services and fees. Refer to the description of each investment advisory service listed below for information on how we tailor our advisory services to your individual needs. As used in this brochure, the words "we," "our," and "us" refer to Clear Money Path and the words "you," "your," and "client" refer to you as either a client or prospective client of our firm.

Financial Planning Services

Financial planning services will typically involve providing a variety of services, principally advisory in nature, to you regarding the management of your financial resources based upon an analysis of your individual needs. We will first conduct a complimentary initial consultation. After the initial consultation, if you decide to engage us for financial planning services, we will conduct follow up meetings as necessary, during which pertinent information about your financial circumstances and objectives is collected.

Once such information has been reviewed and analyzed, a written financial plan - designed to achieve your stated financial goals and objectives may be produced and presented to you. The primary objective of this process is to allow us to assist you in developing a strategy for the successful management of income, assets, and liabilities in meeting your financial goals and objectives.

We provide the following ongoing retainer packages. All packages are *guidelines* for client service levels and can be modified according to your specific needs. Each level corresponds to the number of planning meetings needed for the calendar year and is reflective of the complexity of your situation.

Level 1:

Typically for clients with a Net Worth over \$150,000. This level includes the annual planning meeting for updating our 24/7 planning tool and your Personal Finance Progress Report. (Estate Planning and Insurance is reviewed every 3 years). Additional services include a comprehensive Financial Statement, and access to Clear Money Path's educational materials.

Level 2:

Typically for clients with a Net Worth over \$500,000. This level includes 2 semi-annual planning meetings; one for updating our 24/7 planning tool and the Personal Finance Progress Report, and another for the Estate Planning and Insurance Progress Reports. Additional services include a comprehensive Financial Statement, coordination of strategies with your legal and tax professionals, access to Clear Money Path's educational materials, and a Clear Money Path Survivor Binder.

Level 3:

Typically for clients with a Net Worth over \$1,000,000. This level includes 3 planning meetings through the year, one for updating our 24/7 planning tool and the Personal Finance Progress Report, another for the Estate Planning and Insurance Progress Reports, and a third for the Strategic Giving meeting. Additional services include a comprehensive Financial Statement, coordination of strategies with your legal and tax professionals, access to Clear Money Path's educational materials, comprehensive Data Aggregation across all financial accounts, and a Clear Money Path Survivor Binder.

Level 4:

Typically for clients with a Net Worth over \$1,500,000. This level includes the Level 3 planning meetings throughout the year, *and* the custom *Financial Retreat* meeting (which includes your legal and tax professionals and your Next Generation participation). Level 3 meetings: one for updating our 24/7 planning tool and the Personal Finance Progress Report, another for the Estate Planning and Insurance Progress, and a third for the Strategic Giving meeting. Additional services include a comprehensive Financial Statement, coordination of strategies with your legal and tax professionals, access to Clear Money Path's educational materials, comprehensive Data Aggregation across all financial accounts, and a Clear Money Path Survivor Binder.

Financial plans and planning services are based on your financial situation at the time the plan is presented and are based on financial information disclosed by you to us. You are advised that certain assumptions may be made with respect to interest and inflation rates and use of past trends and performance of the market and economy. Past performance is in no way an indication of future results. We cannot offer any guarantees or promises that your financial goals and objectives will be met. As your financial situation, goals, objectives, or needs change, you must notify us promptly. In limited circumstances, you may only require advice on a single aspect of the management of your financial resources. If this is your case, we offer financial plans in a modular format and/or general consulting services that address only those specific areas of interest or concern.

Portfolio Management Services

We are also engaged in the business of providing discretionary portfolio management and investment advisory services on a continuous basis. If you participate in our discretionary portfolio management services, we require you to grant us discretionary authority to manage your account. Discretionary authorization will allow us to determine the specific securities, and the amount of securities, to be purchased or sold for your account without your approval prior to each transaction. Discretionary authority is typically granted by the investment advisory agreement you sign with our firm, a power of attorney, or trading authorization forms. You may limit our discretionary authority (for example, limiting the types of securities that can be purchased for your account) by providing our firm with your restrictions and guidelines in writing. If you enter into non-discretionary arrangements with our firm, we must obtain your approval prior to executing any transactions on behalf of your account.

As part of our portfolio management services, in addition to other types of investments (see disclosures below in this section), we may invest your assets according to one or more model portfolios developed by our firm. These models are designed for investors with varying degrees of risk tolerance ranging from a more aggressive investment strategy to a more conservative investment approach. Clients whose assets are invested in model portfolios may not set restrictions on the specific holdings or allocations within the model, nor the types of securities that can be purchased in the model. Nonetheless, clients may impose restrictions on investing in certain securities or types of securities in their account. In such cases, this may prevent a client from investing in certain models that are managed by our firm.

In limited circumstances, we may also manage advisory accounts on a non-discretionary basis, meaning your specific consent must be granted prior to each transaction. You have an unrestricted right to decline to implement any advice issued on a non-discretionary basis.

Our fees for non-WRAP programs do not encompass transaction, custodial and administrative costs charged by the account custodian. Fees for these services are disclosed in Section 5 of this brochure.

Selection of Other Advisers

We may recommend that you use the services of a third party money manager ("TPMM") to manage all, or a portion of, your investment portfolio. After gathering information about your financial situation and objectives, we may recommend that you engage a specific TPMM or investment program. Factors that we take into consideration when making our recommendation(s) include, but are not limited to, the following: the TPMM's performance, methods of analysis, fees, your financial needs, investment goals, risk tolerance, and investment objectives. We will monitor the TPMM(s)' performance to ensure its management and investment style remains aligned with your investment goals and objectives.

The TPMM(s) will actively manage your portfolio, and will assume discretionary investment authority over your account. We will assume discretionary authority to hire and fire TPMM(s) and/or reallocate your assets to other TPMM(s) where we deem such action appropriate.

Educational Seminars

Our firm may conduct speaking engagements and educational seminars for a fee. We generally provide these types of seminars to companies, associations, clubs, and other business or non-profit entities. The topics may include issues related to asset/wealth management services, such as financial planning, investment planning, retirement planning, and/or various other economic and investment topics. In limited circumstances, we may waive the fee.

The information covered in a seminar is not based on the individual needs of the attendees. Our firm does not provide investment advice to attendees unless engaged independently, and only where the attendee's individualized financial information, investment goals, and objectives are provided.

Pension Consulting Services

We offer various levels of advisory and consulting services to employee benefit plans ("Plan") and to the participants of such plans ("Participants"). The services are designed to assist plan sponsors in meeting their management and fiduciary obligations to Participants under the Employee Retirement Income Securities Act ("ERISA"). Pursuant to adopted regulations of the U.S. Department of Labor, we are required to provide the Plan's responsible plan fiduciary (the person who has the authority to engage us as an investment adviser to the Plan) with a written statement of the services we provide to the Plan, the compensation we receive for providing those services, and our status.

The pension-consulting services we provide to employee benefits plans and their fiduciaries are based upon an analysis of the needs of the Plan. In general, these services may include the selection of the Plan, an existing plan review, formation of the investment policy statement, asset allocation advice, and/or communication and education services where we will assist the Plan sponsor in providing meaningful information regarding the retirement plan to its participants.

Clear Money Path is a state registered investment adviser and represents that it is not subject to any disqualification as set forth in Section 411 of ERISA.

All employee benefit plans are regulated under the Employee Retirement Income Securities Act ("ERISA"). We will provide consulting services to the plan fiduciaries as described above. Typically, the named plan fiduciary must make the ultimate decision as to retaining the services of such investment advisers as we may recommend. The plan fiduciary is free to seek independent advice about the appropriateness of any recommended services for the plan. In performing fiduciary services, we are acting either as a non-discretionary fiduciary of the Plan as defined in Section 3(21) under ERISA, or as a discretionary fiduciary of the plan as defined in Section 3(38) under ERISA, as set forth in the arrangement with each Plan sponsor.

We may also assist with participant enrollment meetings and provide investment-related educational seminars to plan participants on such topics as:

- Diversification
- Asset allocation
- Risk tolerance
- Time horizon

Our educational seminars may include other investment-related topics specific to the particular plan.

Types of Investments

We primarily offer advice on equity securities, warrants, corporate debt securities, certificates of deposit, municipal securities, investment company securities, U.S. Government securities, and options contracts on securities. Additionally, we may recommend other types of investments since each client has different needs and different tolerances for risk. We may also advise you on any type of investment held in your portfolio at the inception of our advisory relationship, or on specific types of investments at your request.

You may request that we refrain from investing in particular securities or certain types of securities. You must provide these restrictions to our firm in writing.

In general, we manage wrap fee accounts on a discretionary basis based on a long-term investment strategy. However, we manage non-wrap fee accounts on either a discretionary or a non-discretionary basis, and may include a short-term investment strategy in managing this type of account. A long-term investment strategy will typically involve investing in securities that are anticipated to grow in value over a relatively long period of time. On the other hand, a short-term investment strategy will typically involve purchasing and selling securities within a relatively short period of time based on these securities' short-term price fluctuations.

If you participate in our wrap fee program, we will provide you with a separate Wrap Fee Program Brochure (Appendix 1) explaining the program and costs associated with the program.

Assets Under Management

As of February 6, 2020, we provide continuous management services for \$53,161,816 in client assets on a discretionary basis, and \$72,133 in client assets on a non-discretionary basis.

Item 5 Fees and Compensation

Financial Planning Services

We utilize the following financial planning fee schedules for all clients, subject to negotiation, depending on the nature, complexity and time involved in providing you with the requested services.

Fixed Fees: We will charge a fixed fee that ranges between \$250.00 and \$5,000 for a financial plan. *In limited circumstances*, the total cost could potentially exceed \$5,000. In such cases, we will notify you in advance and may request that you pay us an additional fee.

Fees for Customized Services Packages described in Item 4 are:

- Level 1: \$500 minimum annual retainer fee
- Level 2: \$1,000 minimum annual retainer fee
- Level 3: \$1,500 minimum annual retainer fee
- Level 4: \$2,000 minimum annual retainer fee

Financial planning fees are payable upon execution of the financial planning agreement. Alternately, we may require that you pay an initial retainer of 50% of the estimated financial planning or consulting fee in advance of any services rendered with the remaining balance payable upon completion of the contracted services. Under no circumstance will we require prepayment of a fee more than six months in advance and in excess of \$500. If you request a specific hourly consultation, the entire fee will be payable upon completion of the service.

Hourly Fees: We charge an hourly fee of \$250 for individuals who request specific services and do not desire a written financial plan or retainer services.

When the scope of the financial planning services has been agreed upon, a determination will be made as to the applicable fee. The final fee shall be directly dependent upon the facts and circumstances of your financial situation and the complexity of the financial plan or service requested. For example, fees for individual clients are likely to be less than fees for corporate clients due to a greater degree of complexity in general. An estimate of the total cost will be determined at the start of the advisory relationship. Financial planning fees are payable upon execution of the financial planning agreement. Alternately, we may require that you pay an initial retainer of 50% of the estimated financial planning or consulting fee in advance of any services rendered with the remaining balance payable upon completion of the contracted services. Under no circumstance will we require prepayment of a fee more than six months in advance and in excess of \$500. If you request a specific hourly consultation, the entire fee will be payable upon completion of the service.

In our discretion, we may waive or offset a portion of the financial planning fee by commissions earned by an Associated Person for the sale of insurance products in their separate capacities as insurance agents.

You may terminate the financial planning agreement by providing us with written notice. You will incur a pro rata charge for services rendered prior to the termination of the agreement. If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

Unless you received our disclosure brochure at least 48 hours prior to signing the advisory or planning agreement, the agreement may be terminated within five (5) business days without incurring advisory fees or penalties.

Portfolio Management Services

The annual fee for portfolio management services is billed quarterly in advance based on the market value of your assets on the last day of the preceding month. Fees will be assessed pro rata in the event the asset management agreement is executed at any time other than the first day of a calendar month; provided, however, fees shall not be prorated for deposits or withdrawals in excess of \$10,000 (in the aggregate) during in a billing period. Our fees are based on the following tiered fee schedule:

Fees for Portfolio Management Services (non-wrap) are as follows:

Equity and Balanced Accounts	
Portfolio Size	Annualized Fee
First \$500,000	1.25%
Next \$500,001 to \$1,000,000	1.00%
Next \$1,000,001 and above	0.80%

Fixed Income Portfolios

Portfolio Size	Annualized Fee
First \$500,000	0.80%
Next \$500,001 to \$1,000,000	0.70%
Next \$1,000,001 to \$10,000,000	0.60%
Next \$10,000,001 and above	0.30%

The Fee charged to the account is negotiable and is set forth in the portfolio management services agreement ("Agreement"). Upon entering into the Agreement, you will need to open a brokerage account with an independent and unaffiliated brokerage firm, such as RJFS or TD Ameritrade. The brokerage firm will provide you with securities custodial and execution services. Our firm shall never have custody of your funds or securities. We do not impose a minimum to open and maintain an advisory account.

Payment for management fees will be made by the qualified custodian holding your funds and securities provided that you grant written authorization permitting the fees to be paid directly from your account. Our firm will not have access to your funds for payment of fees without your granting such consent in writing. Further, the qualified custodian agrees to deliver a monthly account statement directly to you showing all disbursements from the account. You are encouraged to review your account statements for accuracy. We will receive a duplicate copy of the statement that was delivered to you.

Either our firm or you may terminate the management agreement upon 30 days' written notice to the other. All prepaid fees for the month in which the cancellation notice is given will be returned to you.

Unless you received the firm's disclosure brochure at least 48 hours prior to signing the advisory or planning agreement, the agreement may be terminated within five (5) business days without incurring advisory fees or penalties.

Selection of Other Advisers

Advisory fees charged by TPMMs are separate and apart from our advisory fees. Assets managed by TPMMs will be included in calculating our advisory fee, which is based on the fee schedule set forth in the *Portfolio Management Services* section in this brochure. Advisory fees that you pay to the TPMM are established and payable in accordance with the brochure provided by each TPMM to whom you are referred. These fees may or may not be negotiable. You should review the recommended TPMM's brochure and take into consideration the TPMM's fees along with our fees to determine the total amount of fees associated with this program.

You may be required to sign an agreement directly with the recommended TPMM(s). You may terminate your advisory relationship with the TPMM according to the terms of your agreement with the TPMM. You should review each TPMM's brochure for specific information on how you may terminate your advisory relationship with the TPMM and how you may receive a refund, if applicable. You should contact the TPMM directly for questions regarding your advisory agreement with the TPMM.

Educational Seminars

Our firm may conduct speaking engagements and educational seminars for a fee which is negotiated on a case-by-case basis. Normally, the fixed fee ranges from \$750 to \$5,000 with travel expenses charged separately unless negotiated as part of the overall fee. The fee is based on the length of the seminar, location, number of attendees, and whether or not the company or employer hiring us for the engagement is an existing client. In limited circumstances, we may waive the fee.

Pension Consulting Services

Your fee-paying arrangements will be determined on a case-by-case basis and will be detailed in the advisory agreement. Our firm may either be compensated on a basis of assets under management (especially if the assets are managed by our firm - see the fee schedules above regarding types of programs available), a fixed fee (used most often if the assets are managed outside our firm) or a combination of fee arrangements based on the complexity and size of the plan, the number of participants, the level of services required, and our agreement with you. Examples of the fixed fees are: Business Needs Analysis which is a minimum of \$500 and includes the recommendation of a qualified plan that fits your business. Employee Education is generally \$25 per employee with a \$350 minimum for providing education to employees regarding the company sponsored plan. You may request a quote for our services in advance, free of charge.

In any case, our firm will not have access to your funds for payment of fees without your written consent. We do not reasonably expect to receive any other compensation, direct or indirect, for the services we provide to the Plan or Participants, unless the plan sponsor directs us to deduct our fee from the plan or directs the plan record-keeper to issue payment for our fee out of the plan. If we receive any other compensation for such services, we will (i) offset the compensation against our stated fees, and (ii) we will promptly disclose the amount of such compensation, the services rendered for such compensation and the payer of such compensation to you.

The terms regarding payment of fees and refunds can be found in the related sections above. Either party may terminate the contract upon a 30 day written notice to the other party.

Unless you received the firm's disclosure brochure at least 48 hours prior to signing the advisory or planning agreement, the agreement may be terminated within five (5) business days without incurring advisory fees or penalties.

Additional Fees and Expenses

In addition to, and exclusive of, our investment advisory fees disclosed under the *Advisory Business* section above, you will also be charged brokerage commissions, transaction fees, and other related costs and expenses for trade execution. These transaction charges are paid to, and retained by, the account custodian for its clearance and execution services. We do not receive any portion of these commissions, fees, or costs. For information on our brokerage practices, please refer to the "Brokerage Practices" section below of this Disclosure Brochure.

As part of our investment advisory services to you, we may invest, or recommend that you invest, in mutual funds and exchange traded funds. The fees that you pay to our firm for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or exchange traded funds (described in each fund's prospectus) to their shareholders. These fees will generally include a management fee and other fund expenses. You will also incur transaction charges and/or brokerage fees when purchasing or selling securities. These charges and fees are typically imposed by the broker-dealer or custodian through whom your account transactions are executed. We do not share in any portion of the brokerage fees/transaction charges imposed by the broker-dealer or custodian. To fully understand the total cost you will incur, you should review all the fees charged by mutual funds, exchange traded funds, our firm, and others. For information on our brokerage practices, please refer to the "Brokerage Practices" section of this Brochure.

We may trade client accounts on margin. Fees for advice and execution on these securities are based on the total asset value of the account, which includes the value of the securities purchased on margin. While a negative amount may show on a client's statement for the margined security as the result of a lower net market value, the amount of the fee is based on the absolute market value. This could create

a conflict of interest where we may have an incentive to encourage the use of margin to create a higher market value and therefore receive a higher fee. The use of margin may also result in interest charges in addition to all other fees and expenses associated with the security involved.

Retirement Plans and Plan Participants - We do not reasonably expect to receive any other compensation, direct or indirect, for the services we provide to the Plan or Participants.

Compensation for the Sale of Other Investment Products

Persons providing investment advice on our behalf are licensed as independent insurance agents. These persons will earn commission-based compensation for selling insurance products, including insurance products they sell to you. Insurance commissions earned by these persons are separate and in addition to our advisory fees. This practice presents a conflict of interest because persons providing investment advice on behalf of our firm who are insurance agents may have an incentive to recommend insurance products to you for the purpose of generating commissions. However, you are under no obligation, contractually or otherwise, to purchase insurance products through any person affiliated with our firm.

Any material conflicts of interest between you and our firm, or our employees are disclosed in this Disclosure Brochure. If at any time, additional material conflicts of interest develop, we will provide you with written notification of the material conflicts of interest or an updated Disclosure Brochure.

Item 6 Performance-Based Fees and Side-By-Side Management

We do not accept performance-based fees or participate in side-by-side management. Performance-based fees are fees that are based on a share of a capital gains or capital appreciation of a client's account. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees. Our fees are calculated as described in the *Advisory Business* section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Item 7 Types of Clients

We offer investment advisory services to individuals, banks and thrift institutions, pension and profit sharing plans, trusts, estates, charitable organizations, corporations, and other business entities.

Clear Money Path generally does not impose a minimum to open and maintain an advisory account.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Our Methods of Analysis and Investment Strategies

We may use one or more of the following methods of analysis or investment strategies when providing investment advice to you:

- Charting Analysis - involves the gathering and processing of price and volume information for a particular security. This price and volume information is analyzed using mathematical equations. The resulting data is then applied to graphing charts, which is used to predict future price movements based on price patterns and trends.

- Fundamental Analysis - involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value.
- Technical Analysis - involves studying past price patterns and trends in the financial markets to predict the direction of both the overall market and specific stocks.
- Cyclical Analysis - a type of technical analysis that involves evaluating recurring price patterns and trends.
- Values-Based Analysis - involves analyzing individual companies and their business practices including processes, products, and corporate citizen priorities. With this analysis we strive to produce an assessment regarding a company's propensity for adding value to their various constituencies beyond just shareholders. The assessment serves two purposes. First, it is combined with financial analyses to prioritize investment candidates for selection by Clear Money Path, and second, it is done in concert with any priorities or restrictions from our clients' values-based profile(s). The methodology for this moral audit is provided upon request to all applicable clients.
- Long Term Purchases - securities purchased with the expectation that the value of those securities will grow over a relatively long period of time, generally greater than one year.
- Short Term Purchases - securities purchased with the expectation that they will be sold within a relatively short period of time, generally less than one year, to take advantage of the securities' short term price fluctuations.
- Short Sales - a securities transaction in which an investor sells securities he or she borrowed in anticipation of a price decline. The investor is then required to return an equal number of shares at some point in the future. A short seller will profit if the stock goes down in price.
- Margin Transactions - a securities transaction in which an investor borrows money to purchase a security, in which case the security serves as collateral on the loan.
- Options Trading/Writing: a securities transaction that involves buying or selling (writing) an option. If you write an option, and the buyer exercises the option, you are obligated to purchase or deliver a specified number of shares at a specified price at the expiration of the option regardless of the market value of the security at expiration of the option. Buying an option gives you the right to purchase or sell a specified number of shares at a specified price until the date of expiration of the option regardless of the market value of the security at expiration of the option.

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

Tax Considerations

Our strategies and investments may have unique and significant tax implications. However, unless we specifically agree otherwise, and in writing, tax efficiency is not our primary consideration in the management of your assets. Regardless of your account size or any other factors, we strongly recommend that you continuously consult with a tax professional prior to and throughout the investing of your assets.

Moreover, as a result of revised IRS regulations, custodians and broker-dealers will begin reporting the cost basis of equities acquired in client accounts on or after January 1, 2011. Your custodian will use the FIFO accounting method as the default method for calculating the cost basis of your investments. You are responsible for contacting your tax advisor to determine if this accounting method is the right choice for you. If your tax advisor believes another accounting method is more advantageous, please

provide written notice to our firm immediately and we will alert your account custodian of your individually selected accounting method. Please note that decisions about cost basis accounting methods will need to be made before trades settle, as the cost basis method cannot be changed after settlement.

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.

Recommendation of Particular Types of Securities

As disclosed under the "Advisory Business" section in this Brochure, we primarily recommend the following types of securities; equity securities, warrants, corporate debt securities, certificates of deposit, municipal securities, investment company securities, U.S. Government securities, and options contracts on securities; however, we may recommend other types of investments as appropriate for you since each client has different needs and different tolerance for risk. Each type of security has its own unique set of risks associated with it and it would not be possible to list here all of the specific risks of every type of investment. Even within the same type of investment, risks can vary widely. However, in very general terms, the higher the anticipated return of an investment, the higher the risk of loss associated with it.

There are numerous ways of measuring the risk of equity securities (also known simply as "equities" or "stock"). In very broad terms, the value of a stock depends on the financial health of the company issuing it. However, stock prices can be affected by many other factors including, but not limited to: the class of stock (for example, preferred or common); the health of the market sector of the issuing company; and, the overall health of the economy. In general, larger, better established companies ("large cap") tend to be safer than smaller start-up companies ("small cap") but the mere size of an issuer is not, by itself, an indicator of the safety of the investment.

Corporate debt securities (or "bonds") are typically safer investments than equity securities, but their risk can also vary widely based on: the financial health of the issuer; the risk that the issuer might default; when the bond is set to mature; and, whether or not the bond can be "called" prior to maturity. When a bond is called, it may not be possible to replace it with a bond of equal character paying the same rate of return.

Certificates of deposit are generally the safest type of investment since they are insured by the federal government. However, because the returns are generally very low, it's possible for inflation to outpace the return. Likewise, US Government securities are backed by the full faith and credit of the United States government but it's also possible for the rate of inflation to exceed the returns.

Municipal securities, while generally thought of as safe, can have significant risks associated with them including, but not limited to: the credit worthiness of the governmental entity that issues the bond; the stability of the revenue stream that's used to pay the dividends; when the bond is set to mature; and, whether or not the bond can be "called" prior to maturity. When a bond is called, it may not be possible to replace it with a bond of equal character paying the same dividend.

Mutual funds and exchange traded funds are professionally managed collective investment systems that pool money from many investors and invest in stocks, bonds, short-term money market instruments, other mutual funds, other securities or any combination thereof. The fund will have a manager that trades the fund's investments in accordance with the fund's investment objective. While

mutual funds and ETFs generally provide diversification, risks can be significantly increased if the fund is concentrated in a particular sector of the market, primarily invests in small cap or speculative companies, uses leverage (i.e., borrows money) to a significant degree, or concentrates in a particular type of security (i.e., equities) rather than balancing the fund with different types of securities. Exchange traded funds differ from mutual funds since they can be bought and sold throughout the day like stock and their price can fluctuate throughout the day. The returns on mutual funds and ETFs can be reduced by the costs to manage the funds. Also, while some mutual funds are "no load" and charge no fee to buy into, or sell out of, the fund, other types of mutual funds do charge such fees which can also reduce returns. Mutual funds can also be "closed end" or "open end". So-called "open end" mutual funds continue to allow in new investors indefinitely which can dilute other investors' interests.

Options and warrants give an investor the right to buy or sell a stock at some future time at a set price. Options are complex investments and can be very risky, especially if the investor does not own the underlying stock. In certain situations, an investor's risk can be unlimited. The main difference between warrants and call options is that warrants are issued and guaranteed by the issuing company, whereas options are traded on an exchange and are not issued by the company. Also, the lifetime of a warrant is often measured in years, while the lifetime of a typical option is measured in months.

Item 9 Disciplinary Information

Our firm has been registered and providing investment advisory services since 2009. Neither our firm nor any of our associated persons has any reportable disciplinary information.

Item 10 Other Financial Industry Activities and Affiliations

In addition to being registered as an Associated Person of our firm, Mark Riefer is also licensed as an insurance agent. Mr. Riefer will earn commission-based compensation for selling insurance products, including insurance products he sells to you. Insurance commissions earned by our Associated Persons are separate from our advisory fees. Please see the "Fees and Compensation" section in this Brochure for more information on the compensation received by insurance agents who are affiliated with our firm. This practice presents a conflict of interest because persons providing investment advice on behalf of our firm who are insurance agents may have an incentive to recommend insurance products to you for the purpose of generating commissions. However, you are under no obligation, contractually or otherwise, to purchase insurance products through any person affiliated with our firm.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Description of Our Code of Ethics

We strive to comply with applicable laws and regulations governing our practices. Therefore, our Code of Ethics includes guidelines for professional standards of conduct for our Associated Persons. Our goal is to protect your interests at all times and to demonstrate our commitment to our fiduciary duties of honesty, good faith, and fair dealing with you. All of our Associated Persons are expected to adhere strictly to these guidelines. Our Code of Ethics also requires that certain persons associated with our firm submit reports of their personal account holdings and transactions to a qualified representative of our firm who will review these reports on a periodic basis. Persons associated with our firm are also required to report any violations of our Code of Ethics. Additionally, we maintain and enforce written policies reasonably designed to prevent the misuse or dissemination of material, non-public information about you or your account holdings by persons associated with our firm.

Our Code of Ethics is available to you upon request. You may obtain a copy of our Code of Ethics by contacting Mark Riefer at telephone number 573.426.5570.

Participation or Interest in Client Transactions - Personal Trading Practices

Our firm or Associated Persons of our firm may buy or sell the same securities that we recommend to you or securities in which you are already invested. A conflict of interest exists in such cases because we have the ability to trade ahead of you and potentially receive more favorable prices than you will receive. To mitigate this conflict of interest, it is our policy that neither our Associated Persons nor we shall have priority over your account in the purchase or sale of securities.

Our firm or persons associated with our firm may buy or sell securities for you at the same time we or persons associated with our firm buy or sell such securities for our own account. We may also combine our orders to purchase securities with your orders to purchase securities ("block trading"). Please refer to the "Brokerage Practices" section in this Brochure for information on our block trading practices.

A conflict of interest exists in such cases because we have the ability to trade ahead of you and potentially receive more favorable prices than you will receive. To mitigate this conflict of interest, it is our policy that neither our Associated Persons nor we shall have priority over your account in the purchase or sale of securities.

Item 12 Brokerage Practices

We maintain relationships with several broker-dealers. While you are free to choose any broker-dealer or other service provider as your custodian, we recommend that you establish an account with a brokerage firm with which we have an existing relationship. Such relationships may include benefits provided to our firm, including but not limited to market information and administrative services that help our firm manage your account(s). We believe that the recommended broker-dealers provide quality execution services for our clients at competitive prices. Price is not the sole factor we consider in evaluating best execution. We also consider the quality of the brokerage services provided by recommended broker-dealers, including the value of the firm's reputation, execution capabilities, commission rates, and responsiveness to our clients and our firm. In recognition of the value of the services recommended broker-dealers provide, you may pay higher commissions and/or trading costs than those that may be available elsewhere.

Our firm may recommend that you establish a brokerage accounts with Raymond James Financial Services, Inc. (RJFS), a FINRA member, or TD Ameritrade Inc., member FINRA/SIPC ("TD Ameritrade"), an unaffiliated SEC-registered broker-dealer and FINRA member. Your assets must be maintained in an account at a "qualified custodian," generally a broker-dealer or bank. In recognition of the value of the services the Custodian provides, you may pay higher commissions and/or trading costs than those that may be available elsewhere.

We seek to recommend a custodian/broker that will hold your assets and execute transactions on terms that are, overall, the most favorable compared to other available providers and their services. We consider various factors, including:

- Capability to buy and sell securities for your account itself or to facilitate such services.
- The likelihood that your trades will be executed.
- Availability of investment research and tools.
- Overall quality of services.
- Competitiveness of price.
- Reputation, financial strength, and stability.
- Existing relationship with our firm and our other clients.

Raymond James Financial Services

RJFS provides our firm with access to its institutional trading and operations services, which typically are not available to RJFS retail customers. These services are generally available, without cost, to financial advisory firms who maintain a minimum threshold of investor assets with RJFS.

Raymond James & Associates, Inc.'s (RJA), a corporate affiliate of RJFS and member of the New York Stock Exchange and the Securities Investor Protection Corporation, acts as the clearing agent in the execution of securities transactions placed through RJFS. Our firm has retained and will compensate RJFS and or RJA to provide various administrative services which include determining the fair market value of assets held in the account at least quarterly and producing a brokerage statement and performance reporting for your account detailing account assets, account transactions, receipt and disbursement of funds, interest and dividends received, and account gain or loss by security as well as for the total account.

TD Ameritrade Institutional

We participate in the institutional adviser program (the "Program") offered by TD Ameritrade Institutional. TD Ameritrade Institutional is a division of TD Ameritrade Inc., member FINRA/SIPC ("TD Ameritrade"), an unaffiliated SEC-registered broker-dealer and FINRA member. TD Ameritrade offers to independent investment advisers services which include custody of securities, trade execution, clearance and settlement of transactions. We receive some benefits from TD Ameritrade through our participation in the Program.

As disclosed above, we participate in TD Ameritrade's institutional customer program and we may recommend TD Ameritrade to you for custody and brokerage services. There is no direct link between our participation in the Program and the investment advice we give you, although we receive economic benefits through our participation in the Program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving our participants; access to aggregated trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to your accounts); the ability to have advisory fees deducted directly from your accounts; access to an electronic communications network for order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to us by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by our related persons. Some of the products and services made available by TD Ameritrade through the Program may benefit us but may not benefit your accounts. These products or services may assist us in managing and administering your accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help us manage and further develop our business enterprise. The benefits received by us or our personnel through participation in the Program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of our fiduciary duties to you, we endeavor at all times to put your interests first. You should be aware, however, that the receipt of economic benefits by us or our related persons in and of itself creates a potential conflict of interest and may indirectly influence our choice of TD Ameritrade for custody and brokerage services.

Directed Brokerage

In limited circumstances and at our discretion, some investors may instruct us to use one or more particular brokers for the transactions in their accounts. Those investors who may want to direct us to use a particular broker should understand that this may prevent us from effectively negotiating brokerage compensation on their behalf and may prevent our firm from obtaining the most favorable

net price and execution. Moreover, investors that direct brokerage may incur additional costs for performance reporting. Thus, when directing brokerage business, you should consider whether the commission expenses, execution, clearance, and settlement capabilities that they will obtain through their broker are adequately favorable in comparison to those that our firm would otherwise obtain for you.

Block Trades

We combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as "block trading"). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion regarding factual and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or persons associated with our firm may participate in block trading with your accounts; however, they will not be given preferential treatment.

Economic Benefits

As a registered investment adviser, we have access to the institutional platform of your account custodian. As such, we will also have access to research products and services from your account custodian and/or other brokerage firm. These products may include financial publications, information about particular companies and industries, research software, and other products or services that provide lawful and appropriate assistance to our firm in the performance of our investment decision-making responsibilities. Such research products and services are provided to all investment advisers that utilize the institutional services platforms of these firms, and are not considered to be paid for with soft dollars. However, you should be aware that the commissions charged by a particular broker for a particular transaction or set of transactions may be greater than the amounts another broker who did not provide research services or products might charge.

Item 13 Review of Accounts

Review of Accounts/Reports to Clients

Client accounts are monitored on a continuous basis, with a formal review conducted at least annually. Mark Riefer, Managing Member/CCO or the advisory representative assigned to the account will conduct the review. The calendar is the triggering factor for reviews.

For those investors that retain our firm for financial planning only, and do not implement the financial plan through our firm, reviews and updates to a financial plan are provided at your request, and may be subject to an additional fee. Such arrangements will be negotiated in advance of services rendered.

The custodian holding your funds and securities will send you a confirmation of every securities transaction in your account(s), and a brokerage statement at least quarterly. Our firm will provide reports to you on an as needed basis. Such reports may include information about accounts that are not directly managed by our firm.

Item 14 Client Referrals and Other Compensation

Compensation for Client Referrals

We directly compensate non-employee (outside) consultants, individuals, and/or entities (Solicitors) for client referrals. In order to receive a cash referral fee from our firm, Solicitors must comply with the requirements of the jurisdictions in which they operate. If you were referred to our firm by a Solicitor, you should have received a copy of this Disclosure Brochure along with the Solicitor's disclosure

statement at the time of the referral. If you become a client, the Solicitor that referred you to our firm will receive a percentage of the advisory fee you pay our firm for as long as you are a client with our firm, or until such time as our agreement with the Solicitor expires or a one-time, flat referral fee upon your signing an advisory agreement with our firm. You will not pay additional fees because of this referral arrangement. Referral fees paid to a Solicitor are contingent upon your entering into an advisory agreement with our firm. Therefore, a Solicitor has a financial incentive to recommend our firm to you for advisory services. This creates a conflict of interest; however, you are not obligated to retain our firm for advisory services. Comparable services and/or lower fees may be available through other firms.

Solicitors that refer business to more than one investment adviser may have a financial incentive to recommend advisers with more favorable compensation arrangements. We request that our Solicitors disclose to you whether multiple referral relationships exist and that comparable services may be available from other advisers for lower fees and/or where the Solicitor's compensation is less favorable.

Item 15 Custody

We directly debit your account(s) for the payment of our advisory fees. This ability to deduct our advisory fees from your accounts causes our firm to exercise limited custody over your funds or securities. We do not have physical custody of any of your funds and/or securities. Your funds and securities will be held with a bank, broker-dealer, or other independent, qualified custodian. You will receive account statements from the independent, qualified custodian(s) holding your funds and securities at least quarterly. The account statements from your custodian(s) will indicate the amount of our advisory fees deducted from your account(s) each billing period. You should carefully review account statements for accuracy. If you have a question regarding your account statement or if you did not receive a statement from your custodian, please contact Mark Riefer, Managing Member and Chief Compliance Officer at 573.426.5770.

Item 16 Investment Discretion

Before we can buy or sell securities on your behalf, you must first sign our discretionary management agreement, a power of attorney, and/or trading authorization forms.

You may grant our firm discretion over the selection and amount of securities to be purchased or sold for your account(s) without obtaining your consent or approval prior to each transaction. You may specify investment objectives, guidelines, and/or impose certain conditions or investment parameters for your account(s). For example, you may specify that the investment in any particular stock or industry should not exceed specified percentages of the value of the portfolio and/or restrictions or prohibitions of transactions in the securities of a specific industry or security. Please refer to the "Advisory Business" section in this Brochure for more information on our discretionary management services.

If you enter into non-discretionary arrangements with our firm, we will obtain your approval prior to the execution of any transactions for your account(s).

Item 17 Voting Client Securities

We will not vote proxies on behalf of your advisory accounts. At your request, we may offer you advice regarding corporate actions and the exercise of your proxy voting rights. If you own shares of common stock or mutual funds, you are responsible for exercising your right to vote as a shareholder.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward any electronic solicitation to vote proxies.

Item 18 Financial Information

We are not required to provide financial information to our clients because we do not:

- require the prepayment of more than \$500 in fees and six or more months in advance, or
- take custody of client funds or securities, or
- have a financial condition that is reasonably likely to impair our ability to meet our commitments to you.

Item 19 Requirements for State Registered Advisers

Refer to the Part(s) 2B for background information about management personnel and those giving advice on behalf of our firm.

Our firm is not actively engaged in any business other than giving investment advice.

Neither our firm, nor any persons associated with our firm are compensated for advisory services with performance-based fees. Please refer to the "Performance-Based Fees and Side-By-Side Management" section above for additional information on this topic.

Neither our firm, nor any of our management persons have any reportable arbitration claims, civil, self-regulatory organization proceedings or administrative proceedings.

Neither our firm, nor any of our management persons have a material relationship or arrangement with any issuer of securities.

Item 20 Additional Information

Your Privacy

We view protecting your private information as a top priority. Pursuant to applicable privacy requirements, we have instituted policies and procedures to ensure that we keep your personal information private and secure.

We do not disclose any nonpublic personal information about you to any nonaffiliated third parties, except as permitted by law. In the course of servicing your account, we may share some information with our service providers, such as transfer agents, custodians, broker-dealers, accountants, consultants, and attorneys.

We restrict internal access to nonpublic personal information about you to employees who need that information in order to provide products or services to you. We maintain physical and procedural safeguards that comply with regulatory standards to guard your nonpublic personal information and to ensure our integrity and confidentiality. We will not sell information about you or your accounts to anyone. We do not share your information unless it is required to process a transaction, at your request, or required by law.

You will receive a copy of our privacy notice prior to or at the time you sign an advisory agreement with our firm. Thereafter, we will deliver a copy of the current privacy policy notice to you on an annual basis. Please contact Mark Riefer, Managing Member and Chief Compliance Officer at 573.426.5770 if you have any questions regarding this policy.

Trade Errors

In the event a trading error occurs in your account, our policy is to restore your account to the position it should have been in had the trading error not occurred. Depending on the circumstances, corrective actions may include canceling the trade, adjusting an allocation, and/or reimbursing the account. If a trade error results in a profit, you will keep the profit.
